## Your Assistant Collaboration Option

Real-time conferencing and collaboration.  
Where you want it. When you want it.

The Mitel® Your Assistant® Collaboration Option with USB webcam video brings distributed and integrated enterprise collaboration to a whole new level. Now, with full presence, availability, video communication, and data collaboration, real-time communications are available from the office, the home, or the remote mobile location of choice, all in a secure environment and without the encumbrance of hosted, expensive, by-the-minute charges.

### Give The People What They Want! When They Want It!

The Your Assistant Collaboration Option ties Mitel Unified Communicator® (UC) Advanced (formerly Mitel Your Assistant Premium) voice connectivity with full web conferencing and collaboration capabilities and removes the complexity and cost of a hosted web conferencing solution. Now, anyone within your organization that has a UC Advanced license can create on-the-fly collaboration and conferencing sessions with other colleagues within the organization or with anyone externally, wherever they may be.

Enjoy the benefits of multi-party, multi-location, full collaboration and web conferencing without paying for hosted services. Its simple setup lets you kick-start your collaboration meetings within minutes. No more calling your web hosting provider, booking time, detailing the number of participants, and paying for fixed periods. Simply invite as many people as you want whenever you want from wherever you want and enjoy instant "collaboration".

## Features

Enabling unprecedented control over your business communications, Your Assistant multi-features include:

- **Video Collaboration** – Up to 20-party webcam video connectivity; any USB webcam video<sup>1</sup>
- **Desktop Sharing** – Perfect for training / distance learning without leaving your office or city
- **Application Sharing** – Perfect for multiparty collaboration on Microsoft® Excel, Microsoft® PowerPoint®, Microsoft® Word or any other type of document requiring multiparty input.
- **Whiteboarding**
- **Remote PC Control** – Minimize support costs by requesting control of a participant's desktop to help configure their PC from a remote location
- **Chat** – Initiate chat with a select group or all individuals contained with the collaboration session
- **Public Address Access** – Invite non-UC Advanced individuals into a multiparty / multilocation conferencing / collaboration session with full video capability via a secure internal website address
- **Collaboration Recording** – Enable collaboration and data sharing sessions to be recorded, stored, and used for future playback. Perfect for employees who cannot attend meetings

The Your Assistant Collaboration Option is available in English (U.K. and North American), French (Canadian and European), Dutch, Italian, German, Spanish (European and Latin American) and Portuguese (European).<sup>2</sup>

## Benefits

Benefits extend far and wide for this secure, real-time enterprise collaboration. Key benefits include:

- Enhances effectiveness of communications at all levels
- Minimizes travel costs and related expenses
- Enables users to fully engage prospects, customers, suppliers and vendors over any distance
- Enables interactive training to be conducted efficiently, regardless of time zone or logistic constraints
- Supports a distributed workforce easily and cost-effectively
- Provides one-click escalation from IM conversation to a web conference with integrated voice and video
- Reaches or includes any participant based on integrated UC Advanced presence and availability notification
- Provides one-stop-shop for voice, video, IM / presence data collaboration via UC Advanced

<sup>1</sup> Webcams that are USB 2.0 or FireWire compatible are highly recommended as they reduce the load on the CPU.

<sup>2</sup> If Windows Vista is used, then English (UK and North American) are the only languages supported.
