

# Security Bulletin for Oria

SECURITY BULLETIN ID: 15-0012-008

RELEASE VERSION: 1.0

DATE: 2016-05-02

## OVERVIEW

This security bulletin provides product-specific details on the vulnerability described in Mitel Security Advisory 15-0012. Visit <http://www.mitel.com/security-advisories> for more details.

Multiple vulnerabilities have been identified in specific versions of Oracle Java. The reported issues have varied levels of risk, where some of which were rated as high. Details for some issues are undisclosed by the vendor.

As a precautionary measure, Mitel is updating products to use unaffected versions of Java. The corresponding CVEs are identified in this Security Bulletin; customers are advised to consult these CVEs and vendor references for technical details.

## APPLICABLE PRODUCTS

This security bulletin provides information on the following products:

PRODUCT NAME	VERSION(S) AFFECTED	SOLUTION(S) AVAILABLE
Oria	Oria 4.0, 4.0 SP1 (4.0.39.0, 4.0.112.0)	Upgrade MSL to 10.1.49.0

## RISK / EXPOSURE

The following CVEs are potentially applicable to Oria (listed in order of ID):

CVE-2015-2590, CVE-2015-2601, CVE-2015-2621, CVE-2015-2625,  
CVE-2015-2628, CVE-2015-2632, CVE-2015-2808, CVE-2015-4000,  
CVE-2015-4731, CVE-2015-4732, CVE-2015-4733, CVE-2015-4748,  
CVE-2015-4749, CVE-2015-4760

Due to the limited information, Mitel's ability to confirm applicability and resolution is limited, and is therefore relying on the vendor's assertion.

The aforementioned CVEs have varied levels of risk. Please consult the CVEs for additional details.

## MITIGATION / WORKAROUNDS

No workarounds are available.

## SOLUTION INFORMATION

A new release of MSL is available, which provides an updated Java runtime environment, as well as other fixes. Customers are advised to update to MSL 10.1.49.0. Customers are advised to contact Product Support for more information.
