1 INTRODUCTION

Mitel 7147 is an easy managed line-powered analogue phone. It supports, call log, message waiting, volume adjustment, configuration lock. This user guide describes the features of the Mitel 7147 when it is connected to MiVoice MX-ONE and Telephony Switch.

1.1 USER INFORMATION

Safety instructions

Save these instructions

Read these safety instructions before use!

Note: When using your telephone or connected equipment, the following basic safety precautions should always be followed to reduce risk of fire, electrical shock and other personal injury.

- Follow instructions in the equipment's user guide or other documentation.
- Always install equipment in a location and environment for which it is designed.
- Headsets used with this equipment must comply with EN/IEC 60950-1
- Do not make any changes or modifications to equipment without seeking approval from the party responsible for compliance. Unauthorized changes or modifications could void the user's authority to operate the equipment.
- Do not use the telephone to report a gas leak in the vicinity of the leak.
- Do not spill liquid of any kind on the product or use the equipment near water, for example, near a bathtub, washbowl, and kitchen sink, in a wet basement or near a swimming pool.
- Do not insert any object into equipment slots that is not part of the product or auxiliary product.
- Do not disassemble the product. Contact a qualified service agency when service or repair work is required.
- Do not use a telephone (other than cordless type) during an electrical storm.

Disposal of the product

Your product should not be placed in municipal waste. Please check local regulations for disposal of electronic products.

Notice to European customers:

The CE marking affixed to Mitel products indicates conformance to the R&TTE directive 99/05/EC (Radio and Telecommunications Terminal Equipment Directive). For a copy of the original signed Declaration (in full conformance with EN45014), please contact your Mitel office or Sales partner.

1.2 TELEPHONE PARTS

When you unpack your phone, you should ensure that you have all of the following items. If any part is missing, contact the supplier of your phone.

To resume the call from on another extension:

1. Lift the handset
2. Call the extension where the call was put on hold
3. Press numeric key **8** (France: 4. Sweden:6)

2.4 CALL FORWARDING

Diversion

If you do not want to be disturbed or will be out of office, you can have all calls to your extension diverted to a preprogrammed answering position. Diversion can be made direct, on no answer, on busy or to another information service facility. As a reminder that your telephone is diverted, you will hear a special dial tone each time you lift the handset to make a call.

Order direct diversion from your own extension

The call can be diverted to an individual position or up to three determined common answering positions (depending on the type of the incoming call). Preprogrammed by your system administrator.

1. Lift the handset and Press numeric keys * 21 # (UK: *2#)
2. Replace the handset

Cancel diversion from your own extension:

1. Lift the handset and press numeric keys # 21 # (UK: # 2 #)
2. Replace the handset

To order diversion when there is no answer:

1. Lift the handset and Press numeric keys * 211 # (Finland and Norway: *61#)
2. Replace the handset

Cancel diversion when there is no answer:

1. Lift the handset and press numeric keys # 211 # (UK: #61#)
2. Replace the handset

Diversion when the caller receives a busy tone:

1. Lift the handset and Press numeric keys * 212 # (Finland and Norway: *67#)
2. Replace the handset

Cancel diversion when the caller receives a busy tone:

1. Lift the handset and press numeric keys # 212 # (UK: # 67 #),
2. Replace the handset

Internal Follow me

All calls to your extension are diverted to an extension of your choice, within the private network. For example, when you are working in another room and want your calls to follow you to that answering position. When your telephone has Follow-me you can still make calls from it as usual.

As a reminder that your telephone has Follow-me, you will hear a special dial tone each time you lift the handset to make a call.

Ordering Follow-me from your own phone:

1. Lift the handset (dial tone) and press numeric key * 2 1 * (UK:*2*)
2. Dial extension number of the answering position and press # (Special dial tone)
3. Replace the handset

Canceling Follow-me from your own phone:

1. Lift the handset (special dial tone) and press numeric key # 21 # (ordinary dial tone) (UK:#2#)
2. Replace the handset

Ordering Follow-me from another phone:

You can order Follow-me of your own extension number from another telephone.

The first step is to allow that Follow-me is permitted to be done from another telephone. Do the following from your own telephone:

1. Lift the handset (dial tone) and press numeric keys * 2 1 * (UK:*2*)
2. Dial own extension number and press #
3. Replace the handset

To order Follow me from another telephone:

1. Lift the handset (dial tone) and press numeric keys * 2 1 * (UK:*2*)
2. Dial own extension number * the extension number of the new answering position # (special dial tone)
3. Replace the handset

Canceling Follow-me from another phone:

1. Lift the handset (dial tone) and dial # 21*
2. Dial own extension number # (dial tone)
3. Replace the handset

Ordering Follow-me remotely:

With this feature you can order follow-me of any extension number from any telephone.

The prerequisite is that all the involved telephones have the right service profile-

To order remote programming of follow-me, do the following:

1. Lift the handset (dial tone) and press numeric keys * 2 1 * (UK:*2*)
2. Extension number to divert * extension number of the new answering position #
3. Wait for special dial tone
4. Replace the handset

Canceling Follow-me remotely:

To cancel remote programming of Follow-me from another telephone than the telephone with diverted number:

1. Lift the handset and wait for the dial tone

2. Press numeric keys **# 2 1 *** (UK:*2*)
3. Dial diverted extension number and press **#**
4. Replace the handset

External Follow me

1. Lift the handset and press numeric keys *** 2 2 #**
2. Dial external line code and external number press **#**
3. Replace the handset

Cancel: Lift handset and press numeric keys **# 2 2 #** . Replace the handset.

General Cancelation

Cancel all activated features:

Lift the handset and Press numeric keys **# 001#**

2.5 OPTIONAL CALL HANDLING FEATURES

The features below may not be available in your telephony system. Please contact your system administrator for information.

Free seating

1. Log on: Lift the handset and press numeric keys ***11***
2. Dial Authorization code and press numeric key ***** Own extension number, press **#**

Log off: Lift handset and press numeric keys **#11#**, Replace the handset.

Personal Number

With the personal numbers and profiles feature you can be reached on your normal office phone number even if you are out of the office. A search profile (1-5) can be designed to fit the situation (in the office, traveling, at home, and so on). Both internal and external phone numbers can be used in a profile. Your search profile is programmed or modified by system administrator.

When the feature is activated, incoming calls are transferred to selected phones or back-up services in the order that you choose. If an answering position in the profile is busy, the call can be transferred to another predefined position in the profile (Voice Mail or a colleague). You can handle the profiles from your own office phone. How to do this is described in this section (an operator can also assist you).

You can also use any of the Personal Assistant applications if available.

Contact your system administrator for more information. When out of the office, the feature Direct Inward System Access (DISA) can be used, if available in your system. How to use DISA is described in this section.

Activate or change profile from own extension:

1. Lift handset and press numeric keys *1 0 * (1- 5) #
2. Replace the handset

Canceling a profile from your phone:

1. Lift handset and press numeric keys #10#
2. Replace the handset

Voice Mail

Enter your mailbox:

1. Lift handset and dial the voice mail number and follow recorded instruction.

Note: If the number to the voice mail system has been programmed on the message waiting key you can also press that key to enter the mailbox.

Call Waiting

If you urgently wish to contact a busy extension or external line, you can notify the extension by a call waiting signal:

1. At busy tone, press numeric key, 5 (Finland, France: 6 Sweden: 4).
2. Wait on line

Account Code

This feature is used to charge a call to an account number or to prevent unauthorized calls from your phone. The account code can have 1-15 digits.

1. Lift handset and press numeric key * 6 1 * account code #
2. Dial the digit or digits to get an external line and the external number.

Absence Information

The absent information is used to inform the caller why you are absent and when you will return. Contact your system administrator regarding the available absence codes.

With return date and time

1. Lift the handset and press numeric key * 2 3 *
2. Enter absence code (0-9) and press numeric key *
3. Enter the date or time (MMDD) or time (HHMM), press #

Cancel: Lift handset and press numeric key # 2 3 #, Replace the handset.

Without return date and time

1. Lift the handset and press numeric key * 2 3 *
2. Enter absence code (0-9) and press numeric key #

Cancel: Lift handset and press numeric keys # 2 3 #, Replace the handset.

Order for another extension:

1. Lift the handset and press numeric key * 2 3 0 *

2. Dial the extension number and press *
3. Enter the absence code (0-9), press *

Enter date or time (MMDD) or time (HHMM), for the other persons return, Press #, Replace the handset.

Cancel: Lift handset and press numeric key **#230*** Dial extension number and press #, Replace the handset.

Parallel Ringing

This feature makes it possible for an incoming call to ring on several phones simultaneously and for the call to be answered on any of the phones. The feature requires all the phones involved to be defined in a parallel ringing list.

To disable the parallel ringing temporarily:

1. Lift the handset and press numeric key *** 2 1 ***
2. Dial extension number and press, #,
3. Replace the handset.

To restore Parallel Ringing:

Lift the handset and press numeric key **# 21 #**, Replace the handset.

Intrusion on a busy extension

You can intrude on an ongoing call on a busy extension:

1. Lift the handset and Press numeric key **4**, (France and Sweden: 8)

Before the intrusion a warning tone is sent to the parties in the ongoing call.

Group features

Group Call – pick - up

In a call-pick-up group, any member can answer any individual call to group member.

1. Lift the handset and Press numeric key ***8#** to answer the call (Finland and Sweden: 0)

Common bell group

Calls are signaled on a common bell:

1. Lift the handset and Press numeric key, ***8#**, to answer the call (Finland and Sweden: 0)

Group hunting

As a member of a group of extensions that is called by a common number, you can temporarily leave the group:

1. Lift the handset and Press numeric key *** 2 1 *** (U.K: *2*)
2. Dial your own extension number and press #, replace the handset.

To re-enter the group:

1. Lift the handset and press numeric keys **# 21 #**, Replace the handset (UK:#2#)

If you are authorized, you can divert all calls to a group, to another extension or another group:

1. Lift the handset and press numeric key *** 2 4 ***
2. Dial number of the group to be diverted, Press numeric key *

3. Dial extension number to the new answering position, press #
4. Replace the handset

To cancel the diversion:

1. Lift the handset and press numeric key # **2 4 ***
2. Dial the number of the group that has been diverted
3. Press numeric key #,
4. Replace the handset

Direct inward system Access - DISA

If you are assigned to use this feature and you are working externally, you can call your office and get access to an external line in order to make business calls.

With common authorization code:

1. Lift the handset and call the DISA feature in your office.
2. You receive dial tone, press numeric key: * **7 2 ***
3. Dial the authorization code and press numeric key #
4. You receive a dial tone, Dial external number

With individual Authorization code:

1. Lift the handset and call the DISA feature in your office.
2. You receive dial tone, press numeric key: * **7 5 ***
3. Dial the *authorization code* and press numeric key *
4. You receive a dial tone, Dial *external number*, press *
5. Dial your *own extension number* and press #
6. You receive a dial tone. Dial external number

Authorization code, Common

If you are authorized to use a common authorization code (1 to 7 digits) you can temporarily change any phone used within the telephone system to the authority level connected to this code.

For a single call:

1. Lift the handset and press numeric key * **7 2 ***
2. Enter *authorization code* and press #
3. You receive a verification tone, Dial the digit or digits to get an external line and the external number.

To open an extension for several calls:

1. Lift the handset and press numeric key # **7 3 ***
2. Enter authorization code and press #
3. You receive a verification tone.

To lock an extension:

1. Lift the handset and press numeric key * **73***

2. Enter *authorization code* and press **#**
3. You receive a verification tone.

Authorization code, individual

If you are authorized to use an individual authorization code (1-7 digits, affiliated to your own extension) you can lock your own extension to a common authority level, e.g. when out of the office. You can also temporarily change any other phone used within the telephone system to the same authority level as you have on your own phone. The individual code can be changed from your own extension.

To lock the phone:

1. Lift the handset and press numeric key *** 76 ***
2. Enter *authorization code* and press **#**
3. You receive a verification tone.

To make calls with your authority level when your phone is locked:

1. Lift the handset and press numeric key ***75 ***
2. Enter *authorization code* and press **#**
3. Dial the digit or digits to get an external line and the external number.

To open your phone:

1. Lift the handset and press numeric key **# 76 ***
2. Enter *authorization code* and press **#**
3. You receive a verification tone.

To assign your own authority level to another phone:

1. Lift the handset and press numeric key *** 75 ***
2. Enter *authorization code* and press *****
3. You receive verification tone
4. Enter your *own extension number* and press **#**
5. You receive verification tone, Dial the digit or digits to get an external line and the external number.

To change your individual authorization code:

1. Lift the handset and press numeric key *** 74 ***
2. Enter *old authorization code* and press *****
3. Enter *new authorization code* and press **#**
4. You receive verification tone.

3 TELEPHONE/MENU FEATURES

3.1 CALL RECORDS/CALL LOG

View Call Records

1. Press [] to view the call list
2. Press [] repeatedly to scroll the list

3.5 SYSTEM DEPENDENT PHONE SETTING

Message Waiting Function (MW)

The telephone is equipped with a Message waiting key with a built in LED. If you have a voice mail box it is possible to get an indication on the telephone when you have received a new voice mail. Then the LED will be lighted ON or flashing in blue. The voice mail box can be reached by pressing the MW button.

Enable the MW function on your telephone

To enable the MW function it is required to make two settings:

- I. Set the MW switch to the position that is supported by the telephony system. Alternatives are: MW-, MW+, HV.
- II. You must store the number to the voicemail box in the MW memory of the telephone.

I) Setting the Message Waiting Switch

The Message Waiting switch (at the back of the phone) is used to select the appropriate MW mode (HV / + / -). Please check which MW type the PBX system supports.

1. Set the MW switch

Note: If the LED is steady active, change the message waiting switch position.

II) Save your voice mail number in the telephone

1. Place the handset on the phone and press []
2. Press [] and enter the number to be saved
3. Press [] key again to complete saving
4. The "save" successes with confirmation tone

Disable the message waiting function:

- I). Change the MW switch at the back of the telephone to “OFF”.
- II). Delete the number to the voice mail box from the MW memory:
3. Place the handset on the phone
4. Press []
5. Press []
6. The “delete” successes with confirmation tone

Dial from a MWM

1. Pick up the handset or press ‘Speaker/Handset’
2. Press the []

Set Flash time

Different combination of key sequences are used on different parameter settings as shown in the table below
